

# Introduction to Networking

@ Mammoth Lakes Library

What is networking?

Definition: In the world of computers, **networking** is the practice of interfacing two or more computing devices with each other for the purpose of sharing data. Computer networks are built with a combination of hardware and software.

In the first class, we will go over “Concepts”

Tuesday, June 23, 5-9pm

## Home Networking

In the second class, we will go over ‘Application of Concepts’ learned in the first class.

Tuesday, June 30, 5-9pm
